

To whom it may concern,

My name is Antoine Georges Zammar and I was born in Syria. I studied mechanical engineering. I married my wife, Vivian, in Syria. She is a medical doctor. We moved to America through my wife. My father was a large scale contractor in Syria. He built the castle "Qaser al Shab" for the president at the time. I have three children.

I have been a leader in our church, St. George Cathedral in Coral Gables, from the first year we moved to the United States, 29 years ago. I was responsible for maintaining the church in good financial status throughout the years. We accomplished this by hosting events and parties, including large festivals and donations. I was in this time also responsible for the trust of the Order of Saint Ignatius for four years.

We worked closely with the IOCC to accumulate funds to send for relief in Syria and Lebanon during the difficult times they faced. We created the A-Men group at our Church. Our group, consisting of the men in the church, have assisted all of the groups of the church to ensure their success over the past few years.

I have made sure to support the priests who have come to our church and have our groups aid them in any need they may have, from finances to church organization. We are aiding the priesthood on a larger scale in America and Canada. I have attended many Parish Life Conferences, Conventions, and also clergy reunions around the United States and Canada. This has allowed me to get to know many of our Bishops and Metropolitans. I have a personal relation with many clergy and Bishops.
