## **COURSE DESCRIPTIONS**

### ***Introduction to Orthodoxy***

What do our children need to learn about the Orthodox Church as they grow? Gain confidence and joy in your own faith as you learn the foundational doctrines and interactive ways of teaching them. Discover how to bring Orthodoxy's life-giving Spirit into your lessons.

### ***New Methods in Teaching***

Nurturing Orthodoxy for the next generation involves effective teaching in a limited amount of time. Are the lesson plans provided with our texts effective? Learn how to analyze and rewrite these so that our children acquire heart-knowledge. Providing a class environment that is productive and God-centered is the foundation for learning. Acquire skills and resources to get your class goal-centered. Explore what brain-based learning & Quantum Teaching strategies can offer our church school classrooms.

### ***Moral Issues***

Explore and discuss the many moral issues our youth face at school, and the Orthodox stance on each. Participants will have the chance to ask questions and discuss situations they have faced with the adolescents in their own parishes. Take home a substantive reference handout and a booklet exploring Orthodox considerations for making a moral decision.
